A new NMR solution structure of the SL1 HIV-1(Lai) loop-loop dimer
Kieken, F; Paquet, F; Brule, F; Paoletti, J; Lancelot, G  Nucleic Acids Res. (2006) 34 (1) 343-352

Structure-function relationships of the initiation complex of HIV-1 reverse transcription: the case of mutant viruses using tRNA(His) as primer
Rigourd, M; Goldschmidt, V; Brule, F; Morrow, CD; Ehresmann, B; Ehresmann, C; Marquet, R  Nucleic Acids Res. (2003) 31 (19) 5764-5775

Structural and functional properties of the HIV-1 RNA-tRN(3)(Lys) primer complex annealed by the nucleocapsid protein: Comparison with the heat-annealed complex
Brule, F; Marquet, R; Rong, L; Wainberg, MA; Roques, BP; Le Grice, SFJ; Ehresmann, B; Ehresmann, C  RNA (2002) 8 (1) 8-15

In vitro evidence for the interaction of tRNA(3)(Lys) With U3 during the first strand transfer of HIV-1 reverse transcription
Brule, F; Bec, G; Keith, G; Le Grice, SFJ; Roques, BP; Ehresmann, B; Ehresmann, C; Marquet, R  Nucleic Acids Res. (2000) 28 (2) 634-640

U3 snoRNA genes with and without intron in the Kluyveromyces genus: Yeasts can accommodate great variations of the U3 snoRNA 3'-terminal domain
Fournier, R; Brule, F; Segault, V; Mougin, A; Branlant, C  RNA (1998) 4 (3) 285-302

Characteristics and genetic determinants of bacteriocin activities produced by Carnobacterium piscicola CP5 isolated from cheese
Herbin, S; Mathieu, F; Brule, F; Branlant, C; Lefebvre, G; Lebrihi, A  Curr. Microbiol. (1997) 35 (6) 319-326

Secondary structure of the yeast Saccharomyces cerevisiae pre-U3A snoRNA and its implication for splicing efficiency
Mougin, A; Gregoire, A; Banroques, J; Segault, V; Fournier, R; Brule, F; ChevrierMiller, M; Branlant, C  RNA (1996) 2 (11) 1079-1093
The yeast Hansenula wingei U3 snoRNA gene contains an intron and its coding sequence co-evolved with the 5' ETS region of the pre-ribosomal RNA
Brule, F; Venema, J; Segault, V; Tollervey, D; Branlant, C RNA (1996) 2 (2) 183-197

Secondary structure conservation of the U3 small nucleolar RNA introns in Saccharomyces
Brule, F; Gregoire, A; Segault, V; Mougin, A; Branlant, C CR. Acad. Sci. III-Vie (1995) 318 (12) 1197-1206
